EDUCATION

Mobile Solutions Development

Jan 2022 - Apr 2023 | CGPA: 9.65

Conestoga College - Waterloo, ON, Canada

Bachelor of Technology - Information Technology

Jul 2017 - May 2021 | CGPA: 8.05

Devang Patel Institute of Advance Technology and Research, CHARUSAT University

WORK EXPERIENCE

QA Developer I

July 2023 - April 2026

Innosoft Canada Inc. - Kitchener, ON, Canada

- Built and maintained Playwright and Selenium automated test suites for Fusion, InnoSoft's enterprise ERP, expanding front-end GUI and API test coverage while cutting manual regression cycles.
- Authored Agile test plans and executed release-cycle testing covering functional, regression, and k6 performance testing, catching defects and surfacing bottlenecks before each production release.
- Validated backend data integrity by writing SQL queries and running SQL Profiler, executing developer-provided scripts against the instance database to confirm consistency between database state and frontend behavior.
- Participated in user story reviews, authored requirements traceability documentation, and collaborated with product managers and developers to align test coverage with acceptance criteria.
- Tracked and closed bugs in JIRA and Zendesk with documented reproduction steps, severity tags, and owner follow-up, upholding quality assurance standards across the software development lifecycle.
- Built a GenAI-powered Playwright codegen-to-POM conversion pipeline using Claude AI, eliminating the manual script restructuring step from the test-writing cycle and reducing new test authoring time.
- Mentored peers on test automation patterns and quality engineering practices, contributing to team-wide adoption of structured testing workflows.

Junior Full Stack Developer (Freelance)

June 2023 - Dec 2023

InheritChain - ON, Canada

- Built and deployed a full-stack web application using MEAN stack (MongoDB, Express.js, Angular v12, Node.js), delivering a production-ready product from scratch.
- Designed and implemented RESTful APIs connecting Angular frontend to Node.js/MongoDB backend, validating contracts end to end with Postman.
- Translated client requirements into sprint tasks within an Agile workflow, adjusting scope as priorities shifted to deliver on time.

Software Developer (CO-OP)

Sept 2022 - Dec 2022

Conestoga Applied Research and Innovation - Cambridge, ON

- Designed UI/UX prototypes for a food ordering system in Adobe XD and drove the Flutter/Node.js frontend build from those specs.
- Onboarded and supported part-time team members, shortening their ramp-up on the project.

Software Engineer

May 2021 - Apr 2022

Concept Learning Pvt. Ltd. - Gujarat, India

- Migrated company Admin website from AngularJS to Angular 11, modernizing a legacy codebase and reducing long-term maintenance overhead.
- Added Jasmine/Karma unit tests covering component-level behavior, catching bugs earlier in the development cycle.
- Centralized application state with NGRX Store, ensuring consistent UI behavior across all user flows.
- Co-developed a companion Angular 11 application with the UI/UX team, delivering design-to-code end-to-end.

Software Engineer (CO-OP)

Jan 2021 - Apr 2021

Concept Learning Pvt. Ltd. - Gujarat, India

- Migrated B2B website from AngularJS to Angular 8, adding mobile-responsive layouts to extend the product to all screen sizes.
- Validated API contracts in Postman and refactored stylesheets to SCSS, reducing duplication and improving maintainability.

Software Engineer (CO-OP)

May 2019 - May 2020

Anandorja LLP - Gujarat, India

- Built a Yojana website from scratch using Angular and Node.js, collaborating directly with the technical lead and company founders to meet spec.
- Wrote and tested RESTful backend APIs using Node.js and Express.js.
- Deployed the production site and managed version control with Git across the full project lifecycle.

SKILLS

Testing: Playwright, Selenium, NUnit, k6 (performance), Jasmine/Karma

Languages: C#, JavaScript, TypeScript, Python, Java, Dart, Kotlin, Swift

Frameworks: .Net (C#), Angular (v8/11/12), Node.js, Express.js, Flutter, React

Web: HTML5, CSS3, SCSS

Databases: SQL, MongoDB, MySQL, Firebase Realtime Database

Tools: Azure DevOps, JIRA, Zendesk, Postman, SQL Profiler, Git, GitHub, Bitbucket, Android Studio, Xcode

AI/Other: GenAI (Claude AI), Agile/Scrum, Adobe XD, Linux, macOS, Windows
