PROFESSIONAL SUMMARY

Software Developer and QA Engineer with 3+ years of professional experience in **test automation**, **full-stack web development**, and **Agile SDLC** delivery. Proficient in **Playwright**, **Selenium**, **C#/.NET**, **Angular**, and **Node.js** — skilled across the full SDLC, from designing test cases and managing defect lifecycles to building production-ready **REST APIs** and responsive frontend applications.

WORK EXPERIENCE

QA Developer I Jul 2023 – Apr 2026

Innosoft Canada Inc. — Kitchener, ON, Canada

- **Reached 100% functional test coverage each release and surfaced 50+ defects before production** by building and maintaining 40+ automated **Playwright** and **Selenium** tests across the GUI and **API** layers of Fusion (InnoSoft's ERP), running **functional**, **regression**, and **k6 performance** testing, and validating data integrity with **SQL / SQL Profiler**.
- **Cut new-test authoring time ~30% (20 cases in 2 days vs. 3–5 manually)** by building a **GenAI**-powered **Playwright** codegen-to-**POM** pipeline with **Claude AI**, while tracking defects in **JIRA / Zendesk** and mentoring a colleague on **test automation** practices.

Junior Full Stack Developer (Freelance) Jun 2023 – Dec 2023

InheritChain — ON, Canada

- **Delivered a production-ready MEAN-stack web application from scratch** (**MongoDB**, **Express.js**, **Angular v12**, **Node.js**), implementing the **RESTful APIs** connecting frontend to backend and validating contracts end-to-end in **Postman**.
- **Shipped on time through shifting priorities** by translating client requirements into **Agile** sprint tasks and adjusting scope as the product evolved.

Software Developer (CO-OP) Sep 2022 – Dec 2022

Conestoga Applied Research and Innovation — Cambridge, ON, Canada

- **Drove a food-ordering system from design to working build** by producing **UI/UX** prototypes in **Adobe XD** and developing the **Flutter/Node.js** frontend from those specs, while onboarding part-time members to shorten their ramp-up.

Software Engineer May 2021 – Apr 2022

Concept Learning Pvt. Ltd. — Gujarat, India

- **Modernized a legacy codebase and reduced long-term maintenance overhead** by migrating the Admin website from **AngularJS** to **Angular 11**, centralizing state with **NGRX Store**, and adding **Jasmine/Karma** unit tests to catch bugs earlier in the cycle.

Software Engineer (CO-OP) Jan 2021 – Apr 2021

Concept Learning Pvt. Ltd. — Gujarat, India

- **Extended the B2B product to all screen sizes** by migrating the website from **AngularJS** to **Angular 8** with mobile-responsive layouts, validating **API** contracts in **Postman**, and refactoring stylesheets to **SCSS** to cut duplication.

Software Engineer (CO-OP) May 2019 – May 2020

Anandorja LLP — Gujarat, India

- **Built and deployed a Yojana web platform from scratch** using **Angular** and **Node.js/Express.js**, writing and testing **RESTful APIs** and managing **Git** version control across the full lifecycle alongside the technical lead and founders.
